Technical Skills

- HTML, CSS, JavaScript, Java, C++, LaTeX

Education

University of British Columbia | Vancouver, BC

Sep 2022 – Jun 2027

- B.Sc. Combined Major in Computer Science and Mathematics
- Data Structures and Algorithms, Systematic Program Design, Software Construction

Work Experience

Workshops Instructor | UBC Geering Up Engineering Outreach | Vancouver Canada

May 2023 – Present

- Facilitating engaging coding and STEM workshops in over 100 schools in the lower mainland through detail-oriented lesson planning in a hands-on learning environment.
- Creating a welcoming environment for 90-120 students on a daily basis using effective communication and interpersonal skills.
- Overseeing material preparation and carpool logistics by effectively communicating inventory and driving needs to co-instructors and supervisors in team chats and meetings, leading to the successful operation of exciting workshops for students.

Summer Camps Instructor | UBC Geering Up Engineering Outreach | Vancouver Canada

Jul 2023 – Present

- Running STEM camps of 25+ students and 4+ volunteers through team-oriented leadership and multitasking in a fast-paced, high-volume work environment.
- Resolving conflicts between campers and updating parents on their child's progress and needs, receiving positive feedback from 10+ parents.
- Created clear and detail-oriented STEM experiment scripts on MS Word for co-instructors to follow, resulting in the smooth operation of 10+ camps and 100+ positive feedback surveys from campers.

MATH 100 Tutor | Vancouver Canada

Sep 2023 – Dec 2023

- Communicated difficult, university-level math concepts in an easy-to-understand manner by verbally breaking down challenging concepts into easily digestible steps, improving student's grade by 59%.

Teaching Assistant | Kumon | Richmond/Mission Canada

Sep 2018 – Aug 2022

- Received glowing feedback from parental guardians for creatively adapting lesson content to fit the diverse needs of students with exceptionalities.
- Successfully embraced new responsibilities by mastering record book management and crafting tailored curricula for each child.

Technical Projects

[Cookiejar Cookbook Application](#) | Academic Project

Sep 2023 – Dec 2023

- Designed and developed a cookbook application with a functioning UI which supports add, delete, favourite, view, save, and load recipes options using Java with JSON, and the Java Swing library.

[Bunny Chomp](#) | Academic Project

Jan 2021 – Jun 2021

- Creatively employed JavaScript, HTML, and CSS to create a functional game with 6 unique levels, moving hitboxes, score counters, and music.

Extracurricular

UBC Game Development Club | Vancouver Canada

May 2024 – Present

- Generating game concepts and effectively communicating in weekly meetings to ensure project deliverables are completed in a timely manner and each team is working harmoniously.
